

CCS Disability Action

Te hunga haua mauri mo nga tangata katoa

All people have a unique life force and we value each person equally.

Services Provided

CCS Disability Action Northern Region covers the Auckland and Northland areas.

We administer and issue Mobility Parking Permits to allow people with limited mobility to more easily access their communities.

We work towards connecting people with disabilities with the life opportunities that everyone might reasonably expect.

We work in partnership alongside you and your family/whanau to identify opportunities, remove barriers and access the skills and resources necessary for you and your family to live the life you want:

- belonging in a family / whanau
- learning
- having friends and relationships
- having choices about where you live
- having meaningful work and leisure opportunities
- participating in the community
- belonging culturally and spiritually in a way that has meaning to you

Some examples of our work:

- lobbying and advocating so that children can attend their local school or a school of their choice
- Assist with choices for when you leave school
- providing a child respite service to families
- finding paid employment for people with disabilities
- supporting people to live independently in a suitable place and with the right support
